

# EAST SIDE TRANSPORTATION INITIATIVE

To improve transportation for residents on the east side of Lake Winnipeg, the East Side Road Authority (ESRA) is constructing a 170 kilometre all-season road from PR 304 to Berens River First Nation. Options for improving transportation for the remainder of the communities in the region are also being studied. As the project proceeds, ESRA requires the following professional staff:

## Manager, Engineering & Construction

The successful applicant will be a Senior Professional Engineer (APEGM) with several years of management experience in the field of Structural Engineering related to highway and bridge construction or equivalent combination of education and experience. The position will be responsible for providing leadership and management direction within the organization along with strategic planning, environmental management, and budgeting for the design and construction of the all-season road and related structures. Project management, field inspection experience and computer skills are required. Knowledge and experience in workplace safety and health is an asset. Experience working within Aboriginal communities is an asset and the position will require working in a remote location.

## Road Engineer and Bridge Engineer

The successful applicant for each position will be a Senior Professional Engineer (APEGM) with several years of responsible management experience in the field of Structural Engineering related to highway and bridge construction. Contract administration, field inspection and computer skills are required. Knowledge and experience in workplace safety and health is an asset. Experience working within Aboriginal communities is an asset and the position will require working in a remote location.

In addition, the above positions require:

A motivated and results oriented team player, problem solver, effective oral and written communicator with a valid class 5 driver's license.

This competition will remain open until filled. Please submit resumes to:
